PROFESSIONAL SUMMARY

Healthcare consultant and public education teacher with 10+ years of cross sector experience spanning health system restructuring, workforce analytics, program evaluation, and as licensed public educator. At Ernst & Young Parthenon, led strategic consulting engagements for a 3-hospital health system, driving \$12M in cost savings across supply chain and revenue workstreams. Skilled at translating complex data into executive ready deliverables, managing cross functional teams, and designing performance improvement strategies aligned with evolving care delivery models. Experienced in stakeholder engagement, technical assistance production, and multi workstream project management.

PROFESSIONAL EXPERIENCE

Ernst & Young Parthenon | Houston, TX

July 2022 – July 2024

Senior Consultant — Healthcare & Government Strategy

- Served as lead analyst on a Transformation Management Office (TMO) engagement for a 3-hospital health system, directing competitor benchmarking, workforce reduction analyses, and cost saving initiatives yielding \$12M in savings across supply chain and revenue workstreams.
- Conducted rigorous labor and financial data analyses to optimize workforce distribution, assess FTE requirements, and reduce excess overtime expenditures — producing recommendations that directly influenced senior client decision-making.
- Led weekly executive briefings and bi-weekly governance updates, managing deliverable timelines, scope controls, and stakeholder alignment across a complex, multi-site engagement.
- Directed cross functional teams executing strategic initiatives spanning operations, compliance, and workforce planning, applying structured project management to ensure on time delivery and measurable outcomes.
- Developed provider facing technical assistance tools, issue briefs, and strategic presentations supporting care delivery transformation and executive decision making.

Houston Independent School District | Houston, TX

Aug 2024 – Jan 2025

Director of Retention

- Applied SAP and Power BI to analyze year over year overtime data across a large public sector workforce, surfacing spending trends through executive dashboards and pivot analytics.
- Designed and deployed a qualitative tracking tool to capture root causes of rising overtime costs, synthesizing findings into a data driven strategy with potential to yield \$2–3M in annual savings.
- Produced written findings and recommendations for executive leadership, translating operational data into actionable program guidance.

Education Pioneers | Houston, TX

June 2024 – Aug 2024

Summer Fellow

- Aggregated Community Advisory Committee and town hall feedback into structured recommendations guiding a \$4.4 billion public bond initiative, ensuring alignment across safety, sustainability, and programmatic goals.
- Facilitated multi stakeholder engagement processes, synthesizing diverse community perspectives into policy-ready deliverables for senior leadership.

Waller ISD / One Degree Solutions | Waller, TX

July 2025 – Present

Business CTE Educator & Founder

- Conducting independent research on workforce preparation gaps, CTE program design, and labor market alignment — including analysis of Texas LMI data, community college partnerships, and employer pipeline strategies.
- Developing advisory board structures, grant frameworks (Perkins V, philanthropic), and employer engagement models that bridge institutional gaps in workforce aligned education.

Johnson & Johnson | New Brunswick, NJ

May 2021 – Aug 2021

People Analytics Intern

- Built a Tableau dashboard integrating Workday data to analyze voluntary attrition patterns across 30,000 employees, equipping HR and business leadership with predictive workforce retention strategies.
- Applied predictive analytics to forecast post pandemic attrition risk, supporting enterprise level workforce planning for a global health and consumer products organization.
